

BORNO STATE CITIZEN'S ACCOUNTABILITY REPORT (CAR)

On
Implementations of the 2020 Budget:
The Budget of Recovery & Stabilization

Published: 27th/09/2021

ABOUT THE CITIZENS ACCOUNTABILITY REPORT

The Citizens Accountability Report (CAR) is a series of graphic and tabular illustrations of the contents captured in the Audited Financial Statements prepared by the Borno State Audit office on behalf of the Borno State Government to the citizens to ensure accountability of public funds. This report contains details of the government's performance in the execution of its duties and responsibilities and utilization of funds in the coffers of the government. This accountability report is drafted on the financial statements for the Financial Year (FY) 2020 and in accordance with the reports of state budget revenue and expenditure for the year 2020.

Key Terms Explanation

- **Budget** – Unless otherwise stated, the budget refers to the Final Budget (i.e. the original budget, and any adjustments that have been made via a **supplementary** Budget / revised budget).
- **Actual** – This is the actual amount of revenue collected or expenditure incurred for the year.
- **Variance** – For revenue items, this is calculated as Actual minus budget - a negative variance for revenues and inflows means actual fell below budget, and vice versa for a positive variance. For expenditure, variance is calculated as budget minus actual - a negative variance for expenditures means actual expenditure was above budget, and vice versa.

Performance – This refers to the actual revenue/expenditure as a percentage of the budget. A performance of 100% means the full budgetary allocation was collected (revenue) or spent (expenditure). Performance of less than 100% means the full level of revenue collection or expenditure was not achieved. A performance of more than 100% means more revenue was collected than anticipated, or more money was spent than anticipated in the budget.

EXECUTIVE SUMMARY

The Borno State 2020 Budget, tagged Budget of Recovery & Stabilization, with a size of N134.5 billion was passed on the 29th day of December 2019 and implementation commenced on 1st January 2020. The impact of COVID-19 pandemic couple with the global economic downturn, including the reduction in crude oil price and production, has significant impact that occasioned for a revised budget, which was prepared and passed on the 15th July 2020, & a supplementary budget was subsequently passed on 30th October 2020. Despite the mid-year budget review, the implementation was affected by poor revenue performance and mildly optimistic expectations of federal allocation, loans and grants.

Aggregate revenue performance was 108.5% of the budgeted N108.8 billion in the final budget, this is equivalent to an N9.28 billion increase where Federation Account revenues, domestic loan and internally generated revenue (IGR) performed over 100%. On the expenditure, the actual total expenditure is about N94.04 billion (86.4%) less than the budgeted amount which was N108.86 billion. A closing balance of N6 billion was allowed for due to the anticipated receipt of SFTAS grants in the final month of the year.

Capital Expenditure took the brunt of the expenditure shortfall, with performance of less than 75%. Much of the recurrent expenditure in 2020 was obligatory so, capital expenditure was largely focused on completing ongoing projects. Very few new projects, except those that targeted COVID-19 responsive matters, were started.

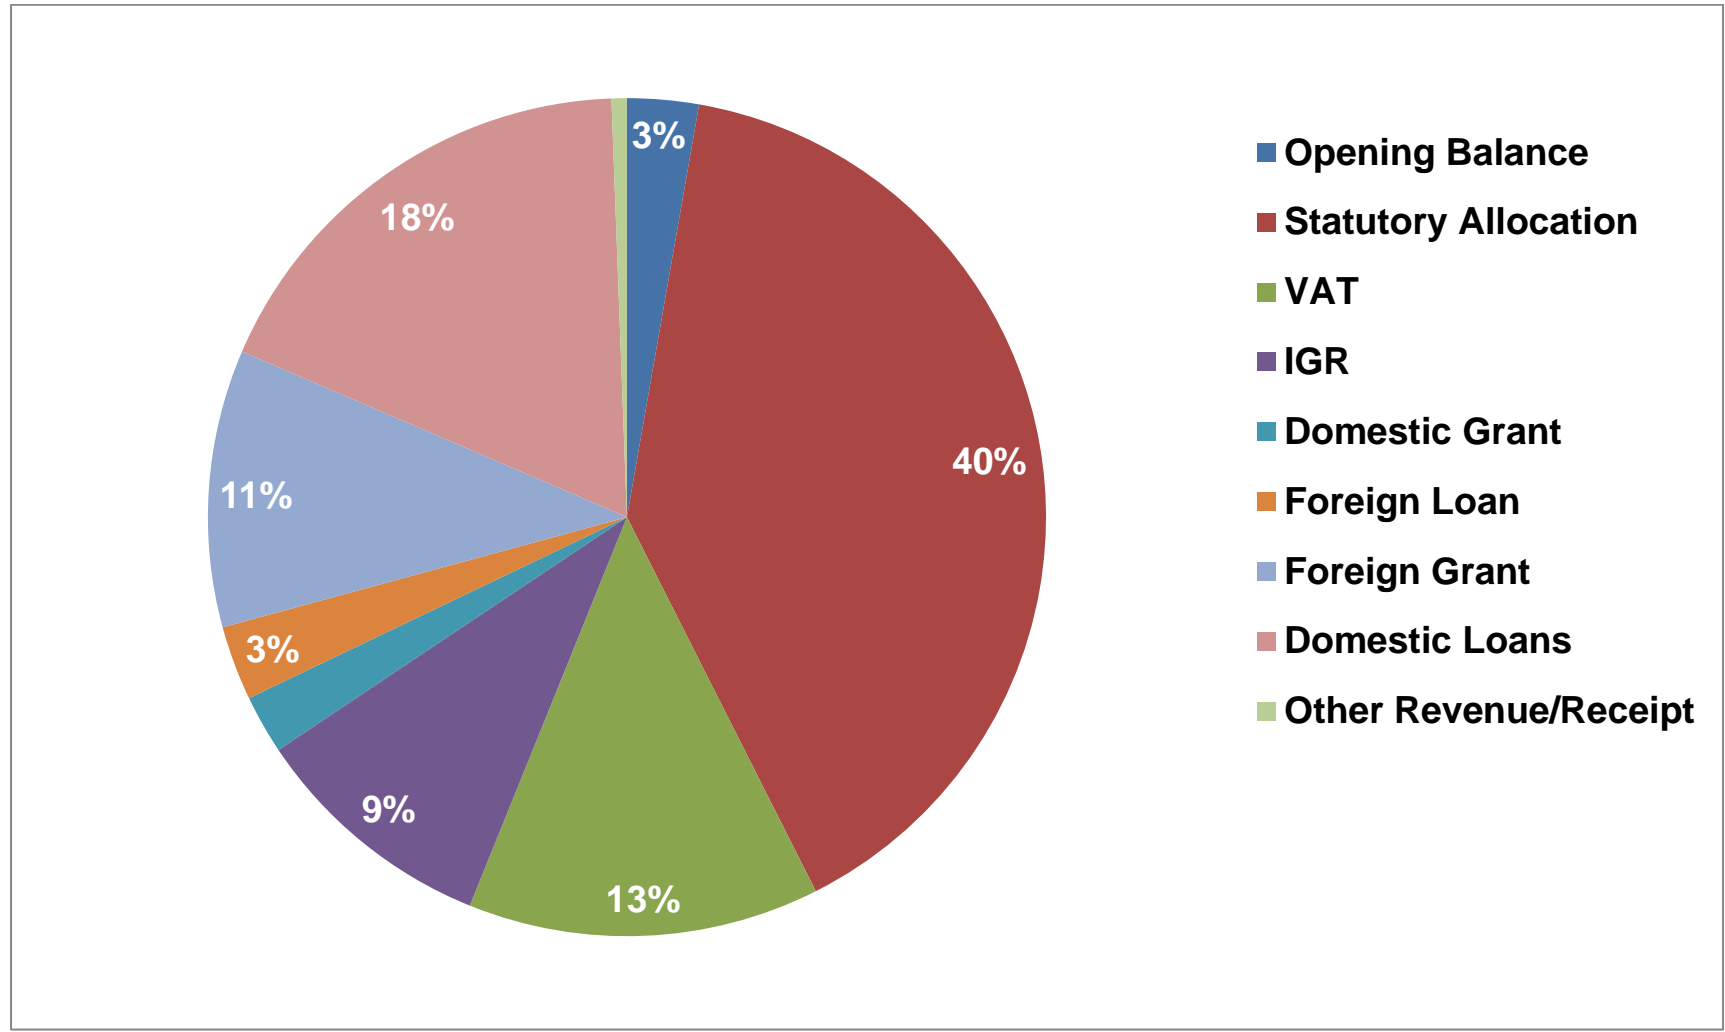

Some of the larger contracts were subject to delays due to weather and funding, and some amendments were made. Citizen's projects were largely implemented as planned and with increment, with exception of few transcending to 2021 as a result of timing.

There was a total of twenty-nine audit queries for the year under review, the most material audit findings related to contract document, receipt/invoice in fifteen projects under Ministry of Religious Affairs and Special Education, procedural and lack of receipt in five projects in Ministry of Home Affairs, Information and Culture, and missing supporting documents for payment voucher for two contracts under Ministry of Water Resources.
